

## THE PRACTICAL PSYCHIC

*A No-Nonsense Guide to Developing Your Natural Intuitive Abilities*

Noreen Renier, Psychic Detective

*“The only psychic I would consider using.”— Former New York detective Vernon Geberth*

### ***What’s the story?***

Have you ever had “that feeling” like you knew something was going to happen? You probably brushed it off as a coincidence. But could you really possess unique psychic abilities and really learn to develop and use them? The answer is *yes*. You were born psychic. You may not have a crystal ball, but you *can* learn how to recognize your innate ability and use it to enrich every area of your life.

A majority of Americans say they believe in psychic phenomena such as ESP, telepathy or experiences that can’t be explained by normal means. Noreen Renier is **the first psychic to ever lecture at the FBI Academy**, and in **THE PRACTICAL PSYCHIC: A No-Nonsense Guide to Developing Your Natural Intuitive Abilities (Adams Media, a division of F+W Media; August 2011)** she takes the mystery and doubt out of psychic phenomena. Noreen has worked on over 600 cases, including the Laci Peterson case, and for two decades has helped lead law enforcement authorities, crime victims, and distressed families to answers. That experience, combined with her no-nonsense approach, will help readers understand and develop their unique gifts and psychic skills without any hocus-pocus.

### **What does it mean for your audience?**

This is the first how-to book to take a practical approach to psychic development. This book brings awareness to readers about their own psychic abilities and teaches how to apply them practically, through helpful exercises and meditations:

- Visualize and interpret colorful auras
- Gain insight from working with pendulums
- Sense impressions from objects using psychometry
- Remember dreams to know the future
